To Whom It May Concern:

It is a pleasure to recommend Johnson Building Corporation and their CEO Rick Johnson.

I have worked with the company for over two years and have found all of the company employees to be professional and talented. My first project with Johnson was a difficult one and their advice and support greatly aided a successful completion. Their work has been first rate in all areas and they are trustworthy.

I am currently in the process of developing two more projects with total construction costs of \$2.4 million. It is my intention to contract Johnson Building Corp. for these and all of my future projects.

If I can be of any further help, do not hesitate to call.

Sincerely,

A handwritten signature in blue ink that reads "Jerry Gabet".
